Management of the messages

The message are in a textual file, an editor in the zone administration allows to remove or modify the messages.

Smiley

To add a pack of smiley:
To create a repertoire named pack11 in livror_ss_bdd/img/smiley imperatively;
Y to deposit your smiley;
One imperatively needs packs of 50 smiley and the smiley for format GIF;
To name your smiley of Joker1 with Joker50;
Your smiley are ready;
Administration option “choice of the smiley” put them online in the zone.

Images of the Smiley in the zone administration

The images of the delivered smiley appear in the zone administration.
To have a sight of a pack that you added, it is necessary to put the image of the whole of the smiley in the répertoire [http: /up to date www.ADRESSE-VOTRE-SITE/livror_ss_bdd/img/list_smileyla](http://up to date www.ADRESSE-VOTRE-SITE/livror_ss_bdd/img/list_smileyla)
put in the zone administration is automatic

Ergonomics

All occurs in the file livror_ss_bdd/Cs/bleu.css
You can of course modify this file but it is imperatively necessary to keep the name of the class

Languages

French, English, Spanish and German.
The translations are certainly not perfect, you can modify them in the repertoire livror_ss_bdd/Lang files fr.php en.php al.php es.php
